The Psychological Effects of Being Quarantined

Stressors of Quarantine and their Psychological Effects Stressors during quarantine include:

1. Frustration and boredom related to the isolation of quarantine, which involves loss of one's usual routine (e.g., regular home and work activities, shopping for necessities) and limited social and physical contact with others.

2. Inadequate supplies and access to regular medical care, including food, water, or change of clothes as well as masks, prescriptions, and thermometers.

3. Insufficient information, such as lack of, or delayed, information from public health authorities, often due to poor coordination among health and government officials; unclear guidance; confusion about reasons for quarantine; and perceived lack of transparency.

4. Longer durations of quarantine (i.e., 10 days or longer), as well as extension of quarantine length.

5. Fears about becoming infected and/or infecting others, which can manifest as increased attention to and worry about one's health and physical symptoms, and may be particularly concerning for pregnant women and parents of young children.

Stressors following quarantine include:

1. Financial loss. Absence from work, healthcare costs, and other unanticipated financial burdens can result in socioeconomic distress, particularly among those with lower incomes.

2. Stigma from others. Stigmatization and rejection by neighbors, co-workers, friends, and even family members can manifest as being treated differently or with fear and suspicion, being avoided or excluded from

leisure, workplace, or school activities, and experiencing stigmatizing comments. Stigma can be exacerbated if quarantined individuals are members of a particular ethnic or religious group.

3. Getting back to one's "normal" routine. Returning to usual work and social routines may take anywhere from several days to several weeks or even months. Knowing that it might take time to get back into regular routines can help with concern, anxiety, and frustration.

Hymn of God's Power

"There's Power In The Blood"

1. Would you be free from the burden of sin?

There's pow'r in the blood, pow'r in the blood;

Would you o'er evil a victory win? There's wonderful pow'r in the blood.

Refrain:

There is pow'r, pow'r, wonder-working pow'r, In the blood of the Lamb;

There is pow'r, pow'r, wonder-working pow'r

In the precious blood of the Lamb.

2. Would you be free from your passion and pride?

There's pow'r in the blood, pow'r in the blood;

Come for a cleansing to Calvary's tide; There's wonderful pow'r in the blood

3. Would you be whiter, much whiter than snow? There's pow'r in the blood, pow'r in the blood; Sin-stains are lost in its life-giving flow; There's wonderful pow'r in the blood. (Refrain)

4. Would you do service for Jesus your King? There's pow'r in the blood, pow'r in the blood; Would you live daily His praises to sing?

There's wonderful pow'r in the blood.

Sungbat: Promoting Psychological Well-being During Quarantine

1. Use communication as an intervention. Clear, understandable, and practical communication can reduce adverse psychological responses and increase behavioral adherence
2. Facilitate communication with loved ones. Knowledge of loved ones' conditions can have a powerful impact on the emotional health of quarantined individuals and improve adherence to recommended quarantine..
3. Prepare for quarantine. Households and facilities under quarantine will need adequate food, household supplies, and medications to last for the duration of the quarantine.
4. Reduce boredom and isolation. Planning for activities during quarantine can help reduce boredom and lessen the focus on symptoms and feelings of being isolated from family and friends
5. Take care of yourself. Healthcare providers are also vulnerable to experiencing the psychological effects of quarantine, and this can be compounded by the stress of caring for sick and distressed patients.
6. Keep quarantine as short as possible. When advising patients on length of time in quarantine, restrict the length to what is scientifically reasonable and take care not to adopt an overly cautious approach.

Salmo 23

Translation by Eugene Peterson (intranslate iti ilokano ni MAS)

¹⁻³ Ti Dios, ti pastorko! Awanen masapulko. Paginanaennak iti nalangto a karuotan, inturongnak iti natalna nga ubbog. Pudno ti saom, impalubosmo a makaangesak ket indalannak iti umno a dalan.

⁴ Uray no ti dalan agturonsing iti ginget ni patay saannak nga agbuteng ta makipagnaka iti sidongko. Babaen ti matalek a bastonmo mariknak iti talged.

⁵ Mangsiganaka iti nagarbo a padaya nga agpaay kaniak iti sangoanan dagiti kabusorko. Riniingmo ti malmalpay nga ulok; Ti tasak aglipiliwas iti bendision.

⁶ Ti kinalapsat ken ayatmo tiliwennak iti inaldaw-aldañ ti panagbiagko. Agsubliak iti balay ti Dios iti unos ti biagko.

“Bumilegkay Ken Jesus” #160

Bumilegkay ken Jesus, Soldados iti krus
Wagyaway ingatoyo dikay ilusulos
Manipud ken balligi, ti buyotna magna
Ket kabusor mapasia, Ni Cristo' Apoda

Bumilegkay ken Jesus, umayab trumpeteta
Napigsa ti dangadang, rumuarkayo ita
Dakay a tattaona, inkayo sumango
Natured ken napigsa makibakalkayo.

Bumilgekay ken Jesus Isu't pagtalkanyo
Agsadagkay KEnkuana, Isu ti pigsayo
Evangelio't bilegyo, inkay agkararag
No umay iti peggad dikayto agamak.

Bumilegkay ken Jesus, bakal din agbayag
Ita ungor ti gubat, balliginton bigat
Itinto agballigi, maikkan balangat
Agtaengto 'diay langit agnanayon a biag.
