Kanta a Panagdayaw 10,000 Reasons (Bless the Lord)

Cho: Bless the Lord oh my soul Oh my soul Worship His Holy name

Sing like never before Oh my soul I'll worship Your Holy name

The sun comes up It's a new day dawning It's time to sing your song again

Whatever may pass And whatever lies before me

Let me be singing When the evening comes

You're rich in love And You're slow to anger Your name is great

And Your heart is kind For all Your goodness I will keep on singing

Ten thousand reasons For my heart to find (cho)

And on that day When my strength is failing the end draws near

And my time has come Still my soul will Sing Your praise unending

Ten thousand years And then forevermore (cho)

Repeat chorus

Sing like never before Oh my soul I'll worship Your Holy name

Jesus I will worship Your Holy name Worship Your Holy name

Song of Offering “Shepherd of My Soul”

Shepherd of my soul I give You full control

Wherever You may lead I will follow

I have made the choice to listen for Your voice

Wherever You may lead I will go (2X).

Be it in a quiet pasture or by a gentle breeze

The shepherd of my soul is by my side

Should I face a mighty mountain or a valley dark and deep

The shepherd of my soul will be my guide

14 ways to protect your mental health in the pandemic, according to Public Health England

- Consider how to connect with others: Video calls with friends and family can help beat isolation.
- Help and support others: Think about how you could help those around you – it could make a big difference to them and can make you feel better too.
- Talk about your worries: Remember that this is a difficult time for everyone and sharing how you are feeling and the things you are doing to cope with family and friends can help them too.
- Look after your physical wellbeing: Try to eat healthy, well-balanced meals, drink enough water, exercise inside where possible and outside once a day
- Look after your sleep: Try to maintain regular sleeping patterns and keep good sleep hygiene practices
- Try to manage difficult feelings: Try to focus on the things you can control, including where you get information from and actions to make yourself feel better prepared.
- Manage your media and information intake: 24-hour news and constant social media updates can make you more worried. It may help to only check the news at set times or limit yourself to a couple of checks a day.
- Get the facts: Gather high-quality information that will help you to accurately determine your own or other people's risk of contracting coronavirus (COVID-19) so that you can take reasonable precautions.
- Think about your new daily routine: Think about how you can adapt and create positive new routines – try to engage in useful activities (such as cleaning, cooking or exercise) or meaningful activities (such as reading or calling a friend).
- Try to manage difficult feelings: Try to focus on the things you can control, including where you get information from and actions to make yourself feel better prepared.

- Do things you enjoy: If you can't do the things you normally enjoy because you are staying at home, try to think about how you could adapt them, or try something new. There are lots of free tutorials and courses online.

- Set goals: Setting goals and achieving them gives a sense of control and purpose – think about things you want or need to do that you can still do at home.

- Keep your mind active: Read, write, play games, do crossword puzzles, sudokus, jigsaws or drawing and painting. Find something that works for you.

- Take time to relax and focus on the present: Relaxation techniques can help some people to deal with feelings of anxiety. For useful resources see [Every Mind Matters](#) and [NHS' mindfulness page](#).

If you can, once a day get outside, or bring nature in: Spending time in green spaces can benefit both your mental and physical wellbeing. If you can't get outside you can try to get these positive effects by spending time with the windows open, or arranging space to sit and see a view (if possible) and get some natural sunlight.

Above all... pray to God..
